Enforced Disappearances :30

2 young men were killed by army backed death squad

Enforced disappearances in the Month of September who are still Missing :11

September 2022

September 2022 report issued by PAANK on the situation of human rights

An overview of Human Rights Situation in Month of September

In the Month of September, 30 people were forcibly disappeared by the Pakistan Army and its intelligence agencies. Two young men were killed by army backed death squad. After severe mental and physical torture 19 people were released who were previously abducted from different parts of Balochistan by State forces.

The people of Balochistan have been enduring to an increasing extent Pakistan's state oppression for the last two decades. States forces have been perpetrating multiple human rights violation on daily basis with complete impunity. Thousands of civilians have been extra judicially killed and forcibly disappeared by Pakistan, s military and its spy agencies.

In September 2022, the actions of Pakistan intelligence agencies and its forces namely counter Terrorism Department CTD and Army has made the lives of civilians unbearably difficult. In the month of September, we have seen an increase in the cases of enforced disappearances instead of decreasing.

The recent visit of Pakistan Home Minister, Law Minister and other ministers in the demonstration sit in camp of Baloch Missing's families, and their made promises yield no result .yet still military machinery is busy doing the same as before.

The families of the Enforced Disappeared has tried to convey their voice to respected organizations of Hunan Rights, courts and Parliament in a peaceful manner and in accordance with the Pakistan's law/constitution. But these organizations have never seriously paid any attention to these grave and serious issues, which again shows that these organizations are turning a blind eye and indirectly complicit in what the mighty Army of Pakistan is doing in Balochistan. This could be interpreted as their silent support for Pakistan Army in committing Extra Judicial Killing, Enforcedly Disappearances and Fake Encounters in Balochistan.

Baloch as a Nation and People of Balochistan has been consistently raising their voices and concerns and coordinating with the responsible International Human rights organizations, but it seems that they are unable to pressurize Pakistan's military complex to put an end to these atrocities and human rights violations being committed in Balochistan against Bloch people.

This Human Rights crisis in Balochistan has affected the people of Balochistan mentally and psychologically. There is an increase in psychological problems because of which there are emerging reports of suicides.

If the violation of human rights and these atrocities continues with impunity in Balochistan and no concrete steps were taken to stop it, then it would not just turn Balochistan an epicenter of violence, but will surely be harmful for the peace in the region. This is the responsibly of the powerful institutions and countries in the world who are aware of these atrocities, human rights violations, and war crimes in Balochistan, and yet still hesitant in confronting Pakistan.
