Appeal to the United Nations and International Media

PAANK urgently calls on the **United Nations**, its **Special Procedures**, and the international media to take immediate and decisive action regarding the grave human rights violations in Balochistan. The scale and consistency of enforced disappearances and extrajudicial killings demand urgent international scrutiny. Continued silence and inaction risk normalising crimes that amount to serious violations of international law.

We urge the **UN Working Group on Enforced or Involuntary Disappearances**, the Special Rapporteur on **Extrajudicial, Summary or Arbitrary Executions**, and the **Special Rapporteur on Torture** to formally engage with the situation in Balochistan, seek country access, and press the Government of Pakistan for full cooperation. Independent fact-finding, international monitoring, and public reporting are essential to ensure accountability and protection for affected communities.

The international media has a critical responsibility to expose these violations and to challenge narratives that obscure the reality on the ground. The suffering of victims and their families must not remain hidden or ignored. Sustained global attention is vital to compel meaningful action and to prevent further loss of life.

PAANK stresses that without immediate international engagement, enforced disappearances, torture, and extrajudicial killings will continue unchecked. The United Nations and the global community must act to uphold human rights, ensure accountability, and protect the fundamental dignity of the people of Balochistan.

Conclusion

The findings of this report confirm a serious and ongoing human rights crisis in Balochistan. The documented cases from November 2025 reveal a persistent and systematic pattern of enforced disappearances, torture in custody, and extrajudicial killings carried out by Pakistani security forces. These violations represent clear breaches of Pakistan's obligations under international human rights law, including the **International Covenant on Civil and Political Rights (ICCPR)** and the **Convention Against Torture (CAT)**.

During the reporting period, 95 individuals were subjected to enforced disappearance, 21 detainees were released after enduring severe physical and psychological torture, and 20 confirmed cases of extrajudicial killing were recorded. These abuses occurred primarily in Balochistan, with additional cases reported from Karachi (Sindh) and Dera Ghazi Khan (Punjab), indicating that the practice is neither isolated nor accidental but part of a broader pattern of state conduct.

The continued failure of Pakistani authorities to conduct independent, transparent, and effective investigations has reinforced a climate of impunity. Victims and their families are denied access to justice, remedies, and truth, while those responsible remain unaccountable. The persistence of these violations demonstrates the urgent need for international oversight, monitoring, and intervention to prevent further harm to civilian populations.

Stand with Balochistan. Stand for human rights.
